

Track My Bus Web APIs

1.Country list

API Code	1	API Slug	get_country
Url	http://24.24.24.60/TMB/service/service_general.php?key=1226&s=1		

DETAILS OF APIs

All country will listed

Required Parameters OF API

key=1226	2
s=1	

2.Register user

API Code	26	API Slug	register_user
Url	http://24.24.24.60/TMB/service/service_user.php?key=1226&s=26&name=Jay&phone=9978078494&email=ajk@gmail.com&password=123456&imei=12&refresh_token=12		

DETAILS OF APIs

Register user

Required Parameters OF API

key=1226	8
s=26	
name=Jay	
phone=9978078494	
email=ajk@gmail.com	
password=123456	
imei=12	
refresh_token=12	

3.Login user

API Code	27	API Slug	login_user
Url	http://24.24.24.60/TMB/service/service_user.php?key=1226&s=27&email=ajk@gmail.con&password=12345&imei=12&refresh_token=12		

DETAILS OF APIs

Login user

Required Parameters OF API

key=1226	6
s=27	
email=ajk@gmail.con	
password=12345	
imei=12	
refresh_token=12	

4.Update user detail

API Code	28	API Slug	update_user_detail
Url	http://24.24.24.60/TMB/service/service_user.php?key=1226&s=28&uid=13&name=Jay&phone=9978078494&email=ajk@gmail.com&address=123456&locality=123456&city=veijs&state=lksajk&country=1		

DETAILS OF APIs

Update user detail

Required Parameters OF API

key=1226	11
s=28	
uid=13	
name=jay	
phone=9978078494	
email=ajk@gmail.com	
address=123456	
locality=123456	
city=veijs	
state=lksajk	
country=1	

5.Get Bus List

API Code	29	API Slug	get_bus_list
Url	http://24.24.24.60/TMB/service/service_bus.php?key=1226&s=29&uid=13&ul=0&ll=2		

DETAILS OF APIs

Get Bus List UI means upper limit and LL means lower limit if you want limited data from database two extra field will there named total record and show record which given number of total records in database and no of record which return by your condition

Required Parameters OF API

key=1226	5
s=29	
uid=13	
ul=0	
ll=2	

6.Get Bus stop List

API Code	30	API Slug	get_busstop_list
Url	http://24.24.24.60/TMB/service/service_busstop.php?key=1226&s=30&uid=13&ul=0&ll=2		

DETAILS OF APIs

Get Bus stop List UI means upper limit and LL means lower limit if you want limited data from database two extra field will there named total record and show record which given number of total records in database and no of record which return by your condition

Required Parameters OF API

key=1226	5
s=30	
uid=13	
ul=0	
ll=2	

7.Get Bus stop bus List

API Code	31	API Slug	get_busstop_bus_list
Url	http://24.24.24.60/TMB/service/service_busstop.php?key=1226&s=31&bsid=1&ul=0&ll=2		

DETAILS OF APIs

Get Bus stop bus List UI means upper limit and LL means lower limit if you want limited data from database two extra field will there named total record and show record which given number of total records in database and no of record which return by your condition

Required Parameters OF API

key=1226	5
s=31	
bsid=1	
ul=0	
ll=2	

8.Get Bus bus stop List

API Code	32	API Slug	get_bus_busstop_list
----------	----	----------	----------------------

Url	http://24.24.24.60/TMB/service/service_bus.php?key=1226&s=32&bid=1&ul=0&ll=2		
DETAILS OF APIs			
Get Bus bus stop List UI means upper limit and LL means lower limit if you want limited data from database two extra field will there named total record and show record which given number of total records in database and no of record which return by your condition			
Required Parameters OF API			
key=1226			5
s=32			
bid=1			
ul=0			
ll=2			
9.Update Bus Location			
API Code	33	API Slug	update_bus_location
Url	http://24.24.24.60/TMB/service/service_bus.php?key=1226&s=33&bid=1&latitude=0&longitude=2		
DETAILS OF APIs			
Update Bus Location			
Required Parameters OF API			
key=1226			5
s=33			
bid=1			
latitude=0			
longitude=2			
10.Login Bus			
API Code	34	API Slug	login_bus
Url	http://24.24.24.60/TMB/service/service_bus.php?key=1226&s=34&passcode=123456		
DETAILS OF APIs			
Login Bus			
Required Parameters OF API			
key=1226			3
s=34			
passcode=123456			
11.Get Bus Real time location			
API Code	35	API Slug	get_bus_location
Url	http://24.24.24.60/TMB/service/service_bus.php?key=1226&s=35&bid=4		
DETAILS OF APIs			
Get Bus Real time location			
Required Parameters OF API			
key=1226			3
s=35			
bid=4
